

3-KNUCKLE HINGE

Differentiate your interior doors with Penrod's new 3 knuckle hinge. This unique hinge options affords a minimalist aesthetic that sets your home or building apart.

See our new innovative product features below.

1. More aesthetically pleasing to the eye:

- a. The overall cleaner look and contemporary design lines are in keeping with the Shaker- and craftsman-style influence that is popular in today's building market.
- b. This option embraces the minimalist trend that is so popular in today's designs, especially for residential cabinet and closet doors.
- c. When closed, the knuckle is minimized and barely visible.

2. Smoother operation:

- a. Penrod's 3-knuckle hinges leverage innovative nylon ball-bearing technology.

- b. Self-lubricating nylon bearings eliminate hinge noise and dust, reduce stress and wear on the hinge and afford a cleaner and sleeker look.
- c. Our 3-knuckle hinges are cycle tested to ensure durability and the quality you expect from Penrod products.

3. Differentiation of your doors:

- a. This innovative look on your interior doors isn't currently available anywhere else in the market.
- b. This new design is only offered by Penrod.

Overall, the advantages of the 3-knuckle hinge make it a good option for applications where a streamlined and modern design as well as smoother operation are key considerations.

ABOUT PENROD

With more than 30 years of experience creating solutions for the construction industry, Penrod has a solid understanding of door and millwork inventory needs.
